

## Hebil Bay common Garden, Bodrum TR

Bodrum, Turkey

Type: Landscape

Location: Bodrum, Turkey

Year: 2003

Client: Private

Cost: 1.600.000 €

Phase: Built

Team: SdARCH Trivelli&Associati, Alhadeff Architects

The landscape design of Hebil Bay is developed on a dual scale: globally the settlement and individually the private gardens of the villas, the project unifies the landscape through the vegetation choices, the pathways and the restoration of the existing environmental & natural conditions. The landscape design also characterizes every single villa lot as a different variant that creates custom garden spaces which act in a harmony with the rest of the landscape design.
